

Field Name	Description	
ISPSID	ISPS dataset ID (Dublin Core: Identifier)	D132
Title	Title of study or dataset (Dublin Core: Title)	Editorial Bias in Crowd Sourced Political Information
Author(S)	Author(s) or PI(s); Persons or organizations responsible for data collection (Dublin Core: Creator)	Joshua L. Kalla and Peter A. Aronow
Citation		Joshua L. Kalla and Peter A. Aronow (2015). Editorial Bias in Crowd Sourced Political Information. PLOS ONE
Related Publication(s)		
Related Project(s)		
Keywords	(Dublin Core: Subject)	Field Experiment; online behavior; collective behavior; crowd-sourcing; political information
Data type		Administrative
Data source(s)	Original sources or documents from which data were obtained (Dublin Core: Source)	Authors; Wikipedia
Data source information	Data source contact and/or suggested citation	Authors; Wikipedia Suggested citation: "Kalla & Aronow (2015) Replication materials for 'Editorial Bias in Crowd Sourced Political Information,' http://hdl.handle.net/10079/70rxws3 . ISPS Data Archive."
Field date	Date of data collection (Dublin Core: Coverage, Temporal)	2014-2015
Location	Geographic location of data collection (Dublin Core: Coverage, Spatial)	United States
Unit of observation	Describes who or what is being studied (e.g., individuals, villages, districts, other)	Wikipedia page of US Senators
Sample size	Number of observations; number of cases in the final archived dataset	551
Inclusion / exclusion	Describes the population from which the sample is drawn and how; criteria for final sample construction	All current and recently deceased/retired US Senators.
Research design	Describes method of data collection and analysis (e.g., field experiment, natural experiment, lab experiment, survey experiment, regression)	Field experiment
Randomization procedure	Describes how participants are allocated to interventions; which units were randomized	Units are randomly assigned, with equal probability, to receive a positive or negative fact on their Wikipedia page. In some studies, units were also randomly assigned, with equal probability, to have the fact cited or not.
Treatment	Describes the interventions administered to each group	The addition of either a true positive or true negative fact to the Wikipedia page of US Senators.
Treatment administration	Describes how the treatments were administered (e.g., mail, door to door, other)	Online
Outcome measures		Length of time fact lasted on Wikipedia page.
Archive date	Date of data deposit in the ISPS archive (Dublin Core: Date)	August 13, 2015
Archive contributor	Person depositing data in the ISPS archive (Dublin Core: Contributor)	Limor Peer
Owner	Person or organization making these data available (Dublin Core: Publisher)	Authors
Owner contact		isps(at)yale(dot)edu
Terms of use	Data source terms of use; ISPS terms of use (Dublin Core: Rights)	Academic, non-commercial; see ISPS Terms of Use http://isps.yale.edu/research/data/terms-of-use
Related database	Other data registries that include this dataset (Dublin Core: Relation)	

Files	Describes the number and nature of files included in this set (e.g., data, program, and output files; supplemental files such as codebook, questionnaires, and treatments)			
Data File Number	Access	Description	File Size (bytes)	File Format
